Calibra® digital digital setting micro-, macro- and multichannel pipettes

The combination of instant volume adjustment, mechanical precision and ease of use makes the Calibra® *digital* one of the most reliable and robust pipette line in the market.

Three-year warranty.

The Calibra® *digital* 822 / 832

Product advantages

- Winding-free, instant volume adjustment
- Long term performance and calibration stability
- Robust, long lasting construction
- Shock, UV light and autoclaving resistance
- Reliable user calibration
- Minimal maintenance requirements
- Interchangeable nozzle filter in all macro models
- Pasteur pipette adapter (Cat. No. 1.835.631) included with 2 mL model

Thin shaft shape helps reach contents from microtubes and/or narrow containers. The Calibra® provides convenient access to those hard to reach places.

Instant volume setting

Twin cam system fitted with pre-calibrated steps providing true digital volume entry and numerical display.

The dual incrementation allows fast volume setting without tedious winding.

Key volume adjustment ①

Example: from 10 to 50 µL in half a revolution of the setting wheel placed in its normal position.

Fine-tuning adjustment ②

Example: from 50 to 55.5 µL in half a revolution of the setting wheel in its "pulled" position.
